The course will deal with various issues relating to Israel's national security. It will touch upon general strategic topics as well as military events, and issues relating to the Israeli- Arab conflict.

The meetings will be based essentially on discussions over articles relevant to the meeting. Each article will be presented by student, and a discussion will follow the presentations. All the material under "discussion in class" will be on the course blackboard's site. The reading material will be reserved in the library.

In addition to the presentations, each student will write a book review on a book relevant to our course- the book report will not exceed 5 pages.

By the end of the semester each student will submit a paper of no more than 15 pages. The topic of the paper will be decided by the student, in consultation with me.
